

PROJECT PLAN DOCUMENT

(Due: 25th August, 2016)

Project number	34
Project Title	<i>IOS app for Fabulyst</i>
Document	Project Plan
Creation date	<i>25th August, 2016</i>
Created By	<i>Vishnu Moorthigari</i>
Client	<i>Vishal Chitravanshi, Fabulyst</i>

Brief problem statement

Fabulyst is a personalised fashion assistant that aims to help young women keep upto date with the current fashion, while also keeping true to their personal tastes. It is an AI assistant that provides informed advice and mix/match choices based on multiple factors. The IOS app will extend the reach of this service to a wider audience than what it currently is at.

Team Communication

Meeting with the client is scheduled to take place on a weekly basis for submission of the week's agenda and deciding on the work to be done in the succeeding week. The scheduled time for meets is 5.30 PM every Monday.

Meetings within the team are to be conducted on a requirement basis, and will take place as and when required. (This is for meets other than that scheduled weekly).

Development Environment

Primary development environment is Xcode available on Mac OS X.

Primary Language to be used - Swift.

Database system - MySQL.

Login APIs - facebook.

REST APIs, json.

Milestone Schedule

The Software development cycle decided upon by the client and us closely resembles Feature Driven Development (FDD). With increasing number of features being added gradually on a weekly basis, such that the tasks for next week will be given every Monday and implemented by the next Monday.

Milestone	Due Date	Release	Deliverable?
<i>Create draft requirements</i>	27/08/16	R1	No
<i>Signing NDA</i>	1/9/16	R1	No
<i>Finalize requirements (SRS)</i>	6/9/16	R1	Yes
